

JOB PROFILE

POSITION: IT Developer / Programmer
STATUS: Full-Time, Monday to Friday
LOCATION: Richmond, B.C
DATE: December 18, 2020

Hemlock Harling Distribution is a rapidly growing company specializing in E-Commerce order fulfillment, mail processing, digital print production and third-party distribution solutions to a diverse range of clients throughout North America. We are an equal partnership of Hemlock Printers, a recognized North American print industry leader based in Burnaby, BC, and Harling Direct, a prominent postal services and fulfillment provider with facilities in Montreal and Toronto.

POSITION OVERVIEW

As part of Hemlock Harling's IT team, the position provides software development and programming services for a diverse range of internal and customer facing projects. In this role, you will work closely with the IT teams at Hemlock Printers and Harling Direct, along with stakeholders in various departments on new projects and handle ongoing maintenance of existing applications, integrations and solutions. The position is largely focused on custom programming work relating to E-Commerce ordering sites, integrations and order management dashboards for Hemlock Harling's national accounts.

POSITION RESPONSIBILITIES

- Analyze, design and code applications solving business issues using industry standards and best practices
- Collaborate with multi-disciplinary teams to find the best solutions using a wide variety of technologies, systems and services
- Test and maintain software products to ensure strong functionality and optimization
- Recommend improvements to existing software programs as necessary
- Participate in reviewing and optimizing processes and codebases
- Develop technical documentation to support application maintenance
- Write quality, clean, well commented code
- Able to find and implement solutions while considering requirements such as:
 - Support and long-term maintenance
 - Extensibility, scalability
 - Best practices for the given language (C#, JavaScript)

SKILLS & QUALIFICATIONS

- Related degree in web development, programming, computer engineering, software engineering or equivalent
- 3+ years of experience with ASP.NET Core and 1+ years of experience with C#, SQL and web-based APIs (REST / SOAP / ODATA), working with relational databases crucial
- Knowledge of systems and programming languages: Windows, OS X, Linux, IIS, Apache, SQL Server, MySQL, .NET Applications, JavaScript, PHP, Agile Methodology
- Experience with developing web UI with HTML/CSS/JavaScript libraries
- Working understanding of application security and safety precautions (OWASP knowledge)
- Experience with Microsoft Dynamics NAV beneficial
- Able to manage multiple, diverse and complex projects with minimal supervision
- Strong written and verbal skills

How to Apply:

If you are interested in exploring this career opportunity and meet the requirements listed above, please send you resume and cover letter to employment@hemlockharling.com. Please quote IT DEVELOPER/PROGRAMMER in the email subject line.
